

12 August 1960

MEMORANDUM FOR: Director of Logistics

SUBJECT: NIS Printing Situation

On behalf of the Office of Basic Intelligence I wish to express appreciation for the excellent work performed by the Administration Building Plant of the Printing Services Division on the NIS program during Fiscal Year 1960.

Throughout the year the printing of NIS was done on a timely basis and at no time during the year did the NIS backlog become excessive. The average printing time per section was reduced from 92 days during FY 1959 to 64 days during FY 1960, an average reduction per section of four weeks.

This is a commendable achievement in view of a reduction of similar magnitude only last year, which reflects efficient management practices. More importantly, as a result of this reduction in printing time we are able to make available this national intelligence to NIS users approximately a month sooner than heretofore.

Assistant Director
Basic Intelligence
